

ZENMAN

He is a man and he can run, ride a bike, ski, meditate and paraglide. He is good at playing rugby or practicing yoga but he is a disaster at climbing or playing football. He is great at cooking "Mapo Tofu" because he went to China. He lived in other countries such as England, France, Indonesia, Qatar and Norway. He has visited Japan, New-Zealand, India, Myanmar, Australia, Cambodia, Jordan, Vietnam, Laos, Sri Lanka, South Korea, Hong Kong and so on. He can teleport to the countries he went to. His favourite cake is the "millionaire short bread" and he hates meat and mushrooms.

He is great at taking photos and playing music. He can play the trumpet, the guitar, the bass, the drums and the piano! He can play all the musical instruments at the same time because he has got several arms.

He speaks many languages such as French, Chinese, Russian and Indonesian, but he especially loves English. "Haka" by Caryl Ferey is his favourite book and orange is the colour he prefers.

He doesn't like wasting time, being serious, and watching "Plus Belle La Vie". On the contrary, his favourite film is "The Monty Pythons and the Holy Grail". He is a disaster at drawing, but he is really patient.
