

December Festive Season poem

Written by Ivy 1er GT2

In the starry night, the snowflakes dance  
The lights twinkle, a sweet romance  
By the fireside, warmth settles in  
Laughter and songs, a joyful spin!

The decorated trees, full of magic,  
Childhood memories, dreams in harmony tragic.  
Families gather, hearts full of cheer  
To share the love that Christmas holds dear.

Wrapped gifts beneath the golden tree  
Symbols of friendship and love shared freely  
On this sacred night, let's raise our voice  
To celebrate together this moment of joy.

May peace and hope illuminate our lives  
And may each moment be filled with harmonies that thrive  
Merry Christmas to all, with tenderness and cheer  
May the magic of Christmas warm our hearts !
