

In my time capsule I have selected some comics to show which kind of literature I appreciate reading. This is one way to describe a teenager's life in the 21st century. Furthermore, in my box there is a film called «Twilight », it is a famous series of 5 movies talking about a vampire who falls in love with a human. I have also put my favourite tee-shirt that I use to workout! It could be very interesting for them because in the future, they may not use the same fabric. I would choose different coloured earrings so they can see the fashion and designs of today. It would be like a little touch of fantasy... Then some pictures of my family to prove our existence on Earth. Of course I will place my MP3 player so it will be possible for them to listen to the same music as me. I adore my collection of rubbers so I will put all of them in it. Finally the most important thing «My Diary», where I write all my secrets.
